Introducing the Outdoor Accents® DIY Pergola Hardware Kit

The latest in our expanding line of outdoor living solutions, this new hardware kit makes it quick and easy for homeowners and DIYers to build a strong, beautiful open-top pergola up to 10' wide x 10' long. Just add lumber!

The kit features straps, post bases and angle connectors from our Outdoor Accents Avant Collection™, with clean lines, chamfered corners and a sleek black powder-coat finish that complements any design. Also included is our patented structural fastener and hex-head washer combo that resembles a bolted connection but installs as easily as a screw—with no predrilled holes required. The connectors are sized for 4x4 nominal lumber.

With this kit, DIYers will have all the connectors and fasteners they need to build a strong, safe, beautiful pergola.

APVA4 4x angle

APVL4 L strap tie

APVB44 4x4 post base

Structural wood screw and hex-head washer

This kit includes all the hardware to build a simple pergola like this. Additional connectors can be added. For more ideas, see strongtie.com/pergolakits.

An Easy Way to Build a Strong, Beautiful Pergola

Features

- Clean, simple lines enhance the beauty of your outdoor living area
- Structural strength has been tested and evaluated to meet stringent building codes
- ZMAX® galvanized steel with a black powder coat provides corrosion resistance
- Fastener and patented hex-head washer create decorative bolt-like connections, but install with the ease of a screw and without predrilling
